

GLENFIDDICH

DISTILLERY EDITION

Our Glenfiddich Distillery Edition uses some of our oldest techniques and traditions. It's matured for at least 15 years and is non-chill filtered to protect its delicate flavours, before being bottled at a high ABV of 51% for a truly original taste.

COLOUR

Because it's non-chill filtered, it may appear a little cloudy when you add water to it, with the colour of deep gold autumn barley in the glass.

NOSE

I find the aromas are quite floral and creamy with just a touch of freshly ground black pepper. Because it's bottled at an unusually high ABV, adding just a drop of water will allow hints of soft fruit and vanilla to develop.

TASTE

There's a delicious vanilla oakiness to this expression. At full strength, the smooth, warming flavour is creamy and spicy. But after adding a little water, the softer vanilla and gentle luscious fruit flavours really start to come through.

FINISH

Our Distillery Edition is soft and fruity and incredibly smooth. The finish is lingering, sweet and velvety warm, the delicate flavours develop with each subsequent sip.
